## Extremism And A Humanitarian Crisis

Like other Yemenis, Christians are suffering the worst humanitarian crisis in the world. Extremist groups utilise the chaos caused by civil war to grow their influence. Christians can't meet together and their faith must be kept secret. The only four churches in the country have all been damaged by the conflict, but even before that they were only used by foreigners.

## Prayer Points

- Pray for the gospel's message of love to change hearts of Islamic extremists.
- Pray secret believers strengthen and encourage each other and reach out to the lost.
- Pray God provides for Christians who don't receive relief aid because of their faith.
