### A Communist Community

In Vietnam, Christians are persecuted by their local communities and the government. They can be imprisoned, beaten and exiled from their villages because of their faith. All of this stems from the Communist culture set by the government. Church meetings are regularly disrupted, and sometimes not allowed to meet at all.

### Prayer Points

- Pray for the government to see that Christianity is not a Western influence but a blessing from God.
- Pray for ethnic minorities who are coming to faith in rural areas, that their numbers will continue to grow.
- Pray for family members of converts to find Christ through their testimonies.
